

## **CUSTOM SETUPS READ ME**

The Hammond Sk Stage Keyboards have been developed to serve musicians of every genre all over the world, and the Presets found in the OEM set reflect the Sk's readiness to serve as the core keyboard in any lineup, anywhere.

Our US and Canadian Artists /Endorsees, along with the thousands of you in the extended Hammond Family have shared your wants and needs with us, and we have begun to create special Setups and Whole Setups to reflect those needs. We have created new combinations, combining the most popular OEM presets and often, adding brand new presets making the Sk even easier to play. We've condensed the USER collections in some cases to make the selection of presets easier for the Working Musician. You'll only see the presets that fit the category. Of course the entire OEM Preset list resides in the "P" Bank of the Sk's.

The FAVORITES in each setup are the "Go-To" sounds for that choice, and reflect the sounds you'll need most.

The Presets may all be edited to your needs, and the Setups can be changed, as always.

Remember, a SETUP loads and saves in seconds-It records ALL the parameters, Presets, Leslie Cabinets and Custom Tonewheel sets.

A WHOLE records everything a SETUP records, plus ALL the Library Voices currently loaded in your SK keyboard. This load/save can take from 7 to 30 minutes depending on the speed of your USB thumb drive.

AND BE SURE TO *BACK UP YOUR CURRENT SETUP* BEFORE LOADING ANY **NEW** SETUP, SO YOU WILL NOT LOSE YOUR PREVIOUS WORK!!

Consult the "Galleries" section of [www.hammondorgandorgan.com](http://www.hammondorgandorgan.com), with attention to the "Save Your Setup" and "Loading A Custom Setup" Videos.

Descriptions of Custom Setups:

**USA PRO STANDARD SETUP (r0914):**

47. Solo A Sax
48. Solo Trumpet
49. Tp. + Tb.
50. Tp. + Tb. Muted
51. Squabble

## VINTAGE B-3 OEM PRESETS SETUP

36 Presets.

The Stock OEM Presets of Vintage Hammond Organs have been used by countless Artists over the past 80 years, making them among the most recognized sounds in all music. There were 2 sets available-The "Standard" Set (sometimes referred to as the "Liturgical" set) which dates back to the earliest Hammond Models. These were the "factory" presets. You also had the option to order your Hammond with the "Theatre" Set, which was a bit more skewed towards popular music. (N.B. Please keep in mind "popular" music here means the popular music of the day-in this case the 40's, 50's and 60's)

These sounds were created by Hammond Hall-Of-Famer Porter Heaps. Here they are replicated, as they were installed on the Classic Instruments at the factory. The Organ Profile for all these registrations is identical, using Jim Alfredson's 1954 C-2 Custom Tonewheels and a Vintage 31-H Leslie created especially for this Setup by Hammond Artist Steven Eaklor. There are 37 presets. The STANDARD Upper and Lower presets are followed by the THEATRE Upper and Lower Presets. Favorites 1-10 correspond to U001-U010. Presets U037-U100 are blank.

*The Legend on each preset is to be read as follows:*

*"Up" refers to the "reverse key" presets on the UPPER Manual of a Vintage Hammond*

*"Lo" refers to the "reverse key" presets on the LOWER Manual of a Vintage Hammond*

*The Note name (A, B, C#, etc.) refers to the location of the preset on a Vintage Hammond.*

***N.B. Even though the presets are divided into "Upper" and "Lower" designations, the split function is not engaged, and all the presets will play on the "Upper" section of the Sk.***

### ***"STANDARD" SET:***

1. Up C# 00 5320 000 Stopped Flute
2. Up D 00 4432 000 Dulciana
3. Up D# 00 8740 000 French Horn

35. Lo G# 00 8030 000 Tibia 8'
36. Lo A 84 7767 666 Bombarde 16'

## TEN MANUALS SETUP

### 10 Presets

Many musicians prefer to register their Hammond Organs manually, rather than rely on Presets. We have also found these types of Players are sometimes reluctant to go "under the hood", relying on the Hammond Profile last used in Manual Mode, which may or may not be the ideal "model" an Organist desires. In this Setup, various "styles" of Hammond Organs with their Typical Leslie's or Speakers are assigned to each of the Favorite buttons *without* registration. Here you may set the Drawbars, Vibrato, Percussion and other parameters as if the Sk was in MANUAL mode. Also included are "Manuals" for the Pipe Organ Voices, Farf Combo Organ and VX Combo Organ. Two extra patches are provided-Acoustic Piano with Bass and Electric Piano with Bass, for the jobbing player's convenience. The entire control panel is LIVE, ready for your registrations.

*IT IS NOT NECESSARY TO PRESS THE **MANUAL** BUTTON WHEN USING THESE FAVORITES. THE **MANUAL** BUTTON REMAINS IN ITS USUAL STATE AND MAY BE USED AS AN "ELEVENTH" MANUAL.*

Positions U011 to U100 are intentionally left blank.

1. Vintage B-3/31h Leslie
2. Mellow B-3/31h Leslie
3. The Relic/122 Leslie
4. Rock B3
5. 1930's Hammond/Pr40
6. Pipes
7. Farfisa
8. Vox
9. B-3 Bass/Piano
10. B-3 Bass/Rhodes

## **AMERICAN CLASSIC**

Ten Favorites encompassing the most common Classic Pipe Organ Registrations. The remainder of the set is blank.

1. Principal Chorus
2. Flute Chorus
3. String Celeste
4. Oboe Solo
5. Trio Sonata
6. Gedeckt 8' & 2'
7. Solo Trompette
8. Plenum
9. Full Crescendo
10. Sforzando

## **AMERICAN CLASSIC Sk-2**

The same set as "American Classic", optimized for the Model Sk-2 Double Manual.

## **BASIC KEYBOARD PALLETTE**

(10 Presets)

Ten Presets with a slightly wider scope than our Pro Standard Set, Designed for the Working Ensemble Keyboard Player, Songwriter, or Single Player. The Remainder of the set is Blank.

1. Vintage B
2. Full Swing
3. Comping Manual
4. Pad O'Stringa
5. Grand/Strings I
6. Grand Piano
7. Road's Suitcase
8. Wurli E Piano
9. Clav (BD)
10. FM Belly E-Piano

## **MIGHTY WURLI WHOLE**

(10 Presets)

Ten Presets inspired by the sounds of the Mighty WurliTzer Theatre Pipe Organ. Presets U011-100 are duplicates of P011-100

1. Tibia 8' & 4'
2. Tibia 16' & 4'
